Why choose Stage 2 A/V Productions for your media archiving?

- Most companies charge by the tape, regardless of how long the tape is and they won't combine tapes on a single DVD or CD. We charge by actual recorded time. The total cost can be significantly less expensive with Stage 2 if you have a large number of tapes.
- We transfer tapes right here in our Bethesda facility. There's no risk to your tapes being damaged or lost in shipping
- VHS tapes are played on pro VHS VCRs. DVDs are archival grade media (Mitsubishi MCC 02RG20)
- MP4 files are encoded at 8 Mbps (a higher bit rate than many other companies)
- No charge for quotes. Bring your tapes to us and we will go through them, calculate the total time and tell you exactly what the cost will be (quotes not available for reel-to-reel audio tapes). There is no obligation to have the work done until you approve the quote.
- Stage 2 has been in business since 1993 and we have been transferring tapes to digital formats since 2004.
